

3.4 Energy Resources in the Environment

Integrated Science

Integrated Science

Look • wonder • predict

OPENING QUESTION

Big question: Which experiment did you find most challenging?

First think alone. Then tell a partner one possible answer.

Today's mission

Goal: Recalls and identify key experiments conducted from Term

1 Learn

Use: Looking Back at Our Experiments, How to Write a Science Report

2 Practise

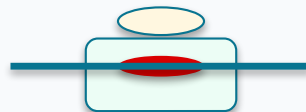

Show: answer with one reason or example.

3 Show

Routine: listen, talk, try, explain.

4 Reflect

Explain in your own words.

Starter: think first

1

THINK

**Which experiment did
you find most
challenging?**

30 seconds

2

PAIR

**compare your first
answer with a partner.**

with partner

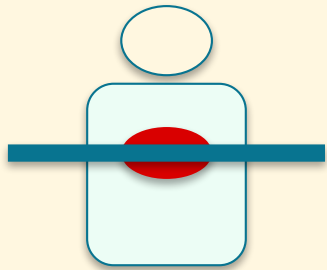

3

SHARE

**connect your answer
to Looking Back at Our
Experiments.**

whole class

Looking Back at Our Experiments

Integrated Science

KEY IDEA

Key idea: Prior knowledge activation regarding Term 1 Science practicals (Skeleton

1

Reviewing the Muscular-Skeletal model.

2

Recalling the Electricity and Magnetism circuit.

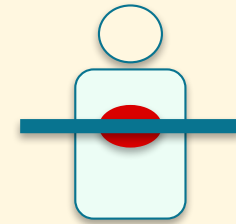

3

Remembering the Energy Resources (biogas/solar) project.

How to Write a Science Report

BOARD MODEL

1. Title and Aim (What and Why).
2. Apparatus/Materials (The tools).
3. Procedure (The steps).

Integrated Science

**Teacher models first.
Learners copy the
pattern, then explain
the step.**

Try it together

Answer with evidence:

?

What materials did we use to represent the backbone in our model?

?

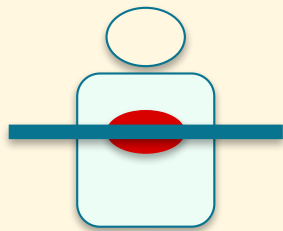

What is the difference between apparatus and procedure?

?

Why do we need an 'Aim' in our report?

Use the source idea, not guessing.

Activity challenge

Integrated Science

GROUP CHALLENGE

Produce one answer the class can check.

1

Brainstorm in pairs and list all the scientific experiments and models created

2

Copy the report structure into their notebooks and label each part based

3

Participate in a whole-class exercise to verbally summarize the 'Biogas Digester'

Class share-out: one group explains, one group improves it.

Exit ticket

EXIT TICKET

Answer: How does writing a report help you remember the experiment?

Use one complete sentence.

Hand in or read your answer aloud.
