

# The Human Body: Muscular-Skeletal System

Integrated Science

**Big question: What do you feel when you touch your shin?**

Think silently → pair talk → share one idea

## Today's mission

**Goal: I can identify and name the main components of the huma...**

1

You will use: Why Do We Have a Shape?, Exploring the Skeleton

2

Success: explain, try, and answer in your own words.

3

Write one clear response.

4

Write one clear response.

## Starter: think first

**Think: What do you feel when you touch your shin?**

1

Pair: compare your first answer with a partner.

2

Share: connect your answer to Why Do We Have a Shape?.

3

Write one clear response.

4

Write one clear response.

## Why Do We Have a Shape?

**Key idea: Prior knowledge activation: Discussing why the body has...**

1

The body has a firm framework.

2

This framework allows us to stand and move.

3

Without it, we would be like a heap of cloth.

4

Write one clear response.

## Exploring the Skeleton

**Model the example step by step.**

**1**

THE SKELETON

**2**

A framework of bones in the body.

**3**

Write one clear response.

**4**

Write one clear response.

## Try it together

**Why can't a piece of cloth stand up on its own?**

**1**

What is the name of the bone protecting the brain?

**2**

Where are the longest bones found in the skeleton?

**3**

Agree on one answer before writing.

**4**

Write one clear response.

## Activity challenge

### Group task:

1

Students touch various parts of their bodies (head, arm, ribs) to...

2

In groups of five, learners observe the skeleton wall chart and p...

3

Students write the definitions of bones, muscles, and joints in t...

4

Write one clear response.

## Exit ticket

**Answer: Is the heart part of the muscular-skeletal system?**

1

Use one complete sentence.

2

Hand in or read your answer aloud.

3

Write one clear response.

4

Write one clear response.
