

3.4 Energy Resources in the Environment

Which experiment did you find most challenging?

Think alone

Pair talk

Share one idea

Point to evidence

Today's mission

Recalls and identify key experiments
conducted from

Looking Back at Our Experiments,
How to Write a

answer with one reason or example

listen, talk, try, explain

Starter: think first

Which experiment did you find most challenging?

compare your first answer with a partner

connect your answer to Looking Back at Our Experiments

Looking Back at Our Experiments

Prior knowledge activation regarding
Term 1 Science

Reviewing the Muscular-Skeletal
model

Recalling the Electricity and
Magnetism circuit

Remembering the Energy Resources
(biogas/solar)

How to Write a Science Report

Title and Aim (What and Why)

Apparatus/Materials (The tools)

Procedure (The steps)

Try it together

Answer with evidence:

What materials did we use to represent the backbone in our model?

What is the difference between apparatus and procedure?

Why do we need an 'Aim' in our report?

Activity challenge

Brainstorm in pairs and list all the scientific experiments and

Copy the report structure into their notebooks and label each part

Participate in a whole-class exercise to verbally summarize the

Exit ticket

How does writing a report help you remember the experiment?

Use one complete sentence

Hand in or read your answer aloud

Complete sentence

Use a key word

Read aloud or hand in
