OPENING QUESTION

Big question: What do you feel when you touch your shin?

First think alone. Then tell a partner one possible answer.

Today's mission

Goal: I can identify and name the main components of the human

1 Learn

Use: Why Do We Have a Shape?, Exploring the Skeleton

2 Practise

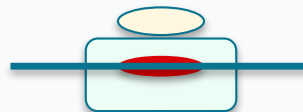

Show: answer with one reason or example.

3 Show

Routine: listen, talk, try, explain.

4 Reflect

Explain in your own words.

Starter: think first

1

THINK

**What do you feel when
you touch your shin?**

30 seconds

2

PAIR

**compare your first
answer with a partner.**

with partner

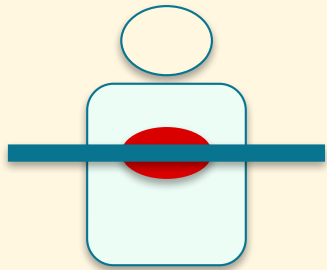

3

SHARE

**connect your answer
to Why Do We Have a
Shape?.**

whole class

Why Do We Have a Shape?

Integrated Science

KEY IDEA

**Key idea: Prior knowledge
activation: Discussing why the
body has a firm shape**

1

The body has a firm framework.

2

This framework allows us to stand and move.

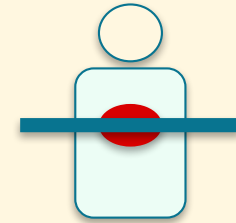

3

Without it, we would be like a heap of cloth.

Exploring the Skeleton

BOARD MODEL

1. THE SKELETON
2. A framework of bones in the body.

Integrated Science

**Teacher models first.
Learners copy the
pattern, then explain
the step.**

Try it together

Answer with evidence:

?

Why can't a piece of cloth stand up on its own?

?

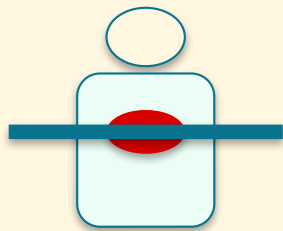

What is the name of the bone protecting the brain?

?

Where are the longest bones found in the skeleton?

Use the source idea, not guessing.

Activity challenge

Integrated Science

GROUP CHALLENGE

Produce one answer the class can check.

1

Touch various parts of their bodies (head, arm, ribs) to identify hard and soft

2

In groups, observe the skeleton chart and point out the skull, ribs, and limb

3

Write the definitions of bones, muscles, and joints in their notebooks as provided

Class share-out: one group explains, one group improves it.

Exit ticket

EXIT TICKET

Answer: Is the heart part of the muscular-skeletal system?

Use one complete sentence.

Hand in or read your answer aloud.
