

## 4.0 Patterns and Sequences (Final Review)

### Mathematics

Mathematics

Look • wonder • predict

### OPENING QUESTION

**Big question: What is a subset?**

First think alone. Then tell a partner one possible answer.

## Today's mission

**Goal: I can apply all Term 1 math ideas (Sets, Whole Numbers**

### 1 Learn

**Use: Setting Up Our Math Market, Mapping the Market Data**

### 2 Practise

**Show: answer with one reason or example.**

### 3 Show

**Routine: listen, talk, try, explain.**

### 4 Reflect

**Explain in your own words.**

## Starter: think first

1

**THINK****What is a subset?**

30 seconds

2

**PAIR****compare your first  
answer with a partner.**

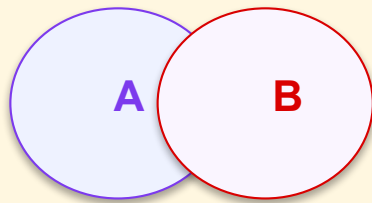

with partner

3

**SHARE****connect your answer  
to Setting Up Our Math  
Market.**

whole class

# Setting Up Our Math Market

Mathematics

## KEY IDEA

**Key idea: Concrete Stage:  
Organizing market items into  
sets and subsets using**

1

**Use stones to represent customers.**

2

**Group local items into Sets.**

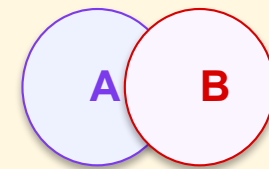

3

**Identify subsets within the market.**

# Mapping the Market Data

## BOARD MODEL

1. Draw a Venn diagram of the inventory.
2. Create a price sequence for items.
3. Identify the rule of the sequence.

Mathematics

**Teacher models first.  
Learners copy the  
pattern, then explain  
the step.**

## Try it together

**Answer with evidence:**

?

How many items are in our Universal Set?

\_\_\_\_\_

?

Can an item belong to two sets at once?

\_\_\_\_\_

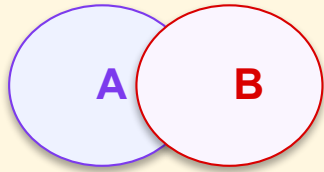

?

Where do we put items that are both cheap and useful?

\_\_\_\_\_

Use the source idea, not guessing.

## Activity challenge

Mathematics

### GROUP CHALLENGE

Produce one answer the class can check.

1

Work in groups of five to sort physical objects (stones, sticks, bottles) into

2

Draw Venn diagrams on paper to represent their sorted sets and write out numerical

3

Individual learners solve multi-digit multiplication and addition problems based

**Class share-out: one group explains, one group improves it.**

## Exit ticket

### EXIT TICKET

**Answer: How does math help a market seller in Uganda?**

---

---

---

Use one complete sentence.

Hand in or read your answer aloud.
